

Packaging Sales Position

We develop repeat sales by building strong relationships with our customers in the packaging, marketing and printed products arena. We generate most of our business by "cold calling". Our extensive vendor base puts us in a highly competitive position to service our customers. We are a \$500 million dollar company in business for over 70 yrs. We offer the highest paid commission in the industry with a draw commensurate with credentials. Experience in any form of packaging or industrial sales is a plus, but not necessary.

We are looking for hunters, not farmers.
