

Warehouse Solutions Engineer

APL Logistics (APLL), one of the foremost providers of end-to-end supply chain services, is currently searching for a Solutions Engineer to join its rapidly expanding business.

APL Logistics is a wholly owned subsidiary of Neptune Orient Lines (NOL); one of the world's largest shipping and logistics companies with annual revenues in excess of \$7 billion. APLL offers a wide range of supply chain management services, including freight forwarding, transportation management, warehousing, light manufacturing, and consolidation services in more than 100 countries in the Americas, Asia, the Middle East, Europe, and Africa. Combining state of the art information systems with renowned operational excellence APLL is able to consistently achieve world-class service for its Fortune 500 customers in the high tech, automotive, consumer, and retail sectors. Uniquely positioned in the market, APLL's exceptional growth potential continues to make it one of the most exciting players in this fast paced industry (APLL's web site can be found at: www.apllogistics.com)

The ideal candidate for this high profile position must be able to work in a fast paced problem-solving environment. He/She must be a highly motivated self-starter with a professional and personable demeanour who thrives in a challenging environment. He/She will have strong communication skills including the ability to clearly communicate business solutions in person and over the phone. He/She will have an ability to work with diverse groups across the company and at all levels of management.
