Dear recruiting manager,

This letter is to express my interest to the summer intern program of your company. I highly interest in positions corresponding to logistics and supply chain. Now I am a graduate student of Fisher Collage of Business, Ohio State University. My major is Master in Business Logistics Engineering. I will graduate at this December. I obtained a bachelor degree of Logistics Management from a Chinese university. I am willing to relocate anyplace, and I will be able to work for your company from Jun. 10<sup>th</sup> to Sept. 15<sup>th</sup>.

I am good at problem analysis, modeling, data analysis, project achieving, team leading and communicating. Although I don't have full time working experience, I had plentiful internship and project experience, which take me approximate 1 year and a half to finish them. I had two internship experiences .I had a logistics internship for Tianjin Coca-cola and a transportation internship for Tianjin port (the 4<sup>th</sup> largest port in the world). Involving the project I am working on, I have five project experiences. Four out of five times I am or was team leader. My project experiences cover multiple function areas of logistics and supply chain management, including transportation management ( e.g. routing), procurement, warehouse management (e.g. warehouse location selection, warehouse layout design),inventory management, logistics finance.

I am a person who has high sense of responsibility, loves to learn, and is good at working in a team. I desire to contribute my intelligence and experience to your company. Also, I desire to improve myself in such an excellent company. I enclose my resume which includes more detailed information about my strength and achievements. My email address is [wang\\_1942@fisher.osu.edu](mailto:wang_1942@fisher.osu.edu). My phone number is 614-558-5966. I expect to hear from you soon. Thank you for your time and consideration.

Sincerely,

Xi Wang
