

## **Logistics Manager**

**Company Name: Confidential**

**Location: Dayton, OH**

### **Job Description**

The Logistics Manager position will perform the following duties:

- Administers the freight income program while ensuring timely delivery of inside collect and backhaul shipments. This would include Backhauls, Arranged Freight Program and the “For Hire” program.
- Enlists and qualifies various carriers and manages the claims and pallet recovery programs.
- Works with manufacturers and other shippers to find outbound loads from the Southeastern Ohio area to return with our product.
- Administers claim recovery program.
- Ensures that loads are booked and delivered as scheduled.
- Searches for carriers to cover loads in problem areas.
- Qualifies carriers and maintains accurate rate, contract and insurance records.
- Identifies backhaul pickups that do not meet the minimum requirement for revenue.
- Reviews daily purchase orders to build optimal consolidations to achieve maximum revenue.
- Establishes Booked Freight Cost with vendors.
- Negotiates contract rates and conditions with carrier.
- Administers "pallets owed" to vendor program.
- Books loads with appropriate vendor.
- Initializes billbacks to vendors for lost freight opportunities

### **Qualifications**

4 years College Preferred; at least 5 years of experience in Logistics required, 8 years preferred  
Foodservice experience
